

## **RIE Toxicology Drugs of Abuse Accreditation Status**

The Toxicology section within Clinical Biochemistry, Royal Infirmary of Edinburgh provides a drugs of abuse service for the Lothian Health Board. Drugs of abuse are measured in urine and oral fluid using Waters Xevo tandem mass spectrometry.

RIE Clinical Biochemistry Toxicology was granted a flexible scope of accreditation 24/02/2021. Below is a list of drugs currently measured that are accredited under a UKAS Flexible Scope of accreditation. Newly validated drugs will be highlighted until the next UKAS assessment and will be updated quarterly.

<b>List of Flexible Scope Accredited Tests</b>
